**UNDERGRADUATE
CANDIDATES FOR DEGREES**

GRADUATION WITH DISTINCTION

Based on a grading system of "A" as 4.0, three
designations of graduation honors are recognized:

Summa Cum Laude	With Highest Distinction
Magna Cum Laude	With High Distinction
Cum Laude	With Distinction

GRADUATION WITH HONORS

With the approval of the University Honors Council, Memphis State University offers several departmental honors programs. These programs involve a combination of special honors course work, independent study, and usually an honors thesis or project. Students who successfully complete a departmental honors program are awarded their degrees with honors in their area of concentration (e.g., With Honors in English).

WITH HIGH SCHOLARSHIP

Students who successfully complete the two-year program with a grade point of 3.25 or better are awarded the associate degree with high scholarship.

THE HISTORICAL HERITAGE

From the opening of its doors in 1912 as a normal school for training teachers to its present status as a multipurpose university, Memphis State has been inevitably thrust forward by the growth of Memphis and the Mid-South. A town oriented to a rural economy and culture in 1900 grew into a large urban and commercial center by mid-century, and the city's public institution of higher learning experienced comparable growth.

Memphis State's development has been typical of other major universities coming into prominence since World War II in an emerging modern South. As a public institution in a relatively poor state, Memphis State's destiny has been closely related to the attitudes of governors, legislators, newspaper editors, and members of governing boards. Their perception of public educational needs determined a college's role. The realities of state politics meant that a notion of "democracy" would define admission policies, academic programs, and the financing of a "peoples" college. Unfortunately for Memphis State, until a decade and a half ago these leaders assumed that Tennessee could afford only one state university.

Nevertheless, from normal school for a few hundred students (1912-1925), to teachers' college with a better staff and an enrollment of up to a thousand (1925-1941), to state college with an expanded curriculum in liberal arts, business, and graduate education for three to four thousand students (1941-1957), the institution finally became a full university in 1957.

As the city of Memphis prospered and exceeded a half million population, the demand for a completely developed, comprehensive public university could not be denied. Other state universities were too distant to help and local private colleges were limited in curricular offerings and the number of students they could accommodate. At last, legislators and board members changed their minds about Memphis State's role and began channeling the resources necessary to meet the educational needs of Memphis and West Tennessee. This change resulted only partially from impersonal forces reflected in census returns; it always required forceful leadership from concerned local citizens, several presidents, alumni and faculty members.

The metropolitan requirements for more highly trained university graduates have of necessity caused Memphis State to expand all of its offerings in arts and sciences, business administration, education, graduate work (including the doctorate in ten disciplines), law, engineering, continuing education for all ages of people, and nursing, in addition to several special non-degree programs.

For the most part, Memphis State has experienced constructive racial integration, fortunately avoiding the disruptions that wracked other colleges. From eight black students in 1959 to two thousand by 1970, Negro students have made the goal of democratic education a reality at Memphis State. By 1977 minority students at MSU (including Americans of oriental, Spanish, and Indian background and foreign students) increased to 18.1% of the total enrollment.

Recently, all aspects of the University's operation have developed rapidly. From 1960 to the present, for example, the number of full-time faculty members increased from 200 to 771; library holdings from 80,000 to 667,000 bound volumes, the operating budget from \$2,373,000 to \$39,988,244; campus acreage from 85 to 1,160 acres; and campus value (land, buildings, equipment) from \$17,000,000 to \$89,325,924.

Now, as the enrollment settles down in the 20,000 range, the University strives to build its academic, research, and public service programs to match its recent physical expansion. Only sixty-five years ago Memphis State was a little normal school; today it is a regionally recognized university with a most promising future.

ACADEMIC DRESS

The following information is to help our visitors identify the costumes seen in the commencement procession.

Academic dress originated at universities in the Middle Ages when a warm gown and hood were necessary in unheated buildings. For centuries these gowns distinguished students from their fellow citizens; sometimes this distinction in dress symbolized unfortunate controversies between "town and gown". The European habit of using academic robes came to this country in the eighteenth century with the founding of what is now Columbia University. In 1895 American universities and colleges standardized their styles of academic costumes, and this system, with occasional modifications, is still in force. Today the various colors, trimmings, and patterns of gown, hood, and cap are all traditional and symbolize both the degree and field of learning.

GOWNS: American academic gowns are usually of black material, and their pattern varies with the degree held. The bachelor gowns are relatively simple in design with a closed front and long, pointed, open sleeves. Master's gowns have an open front with long, closed sleeves, the arms extending through a slit at the elbow, giving the appearance of short sleeves. Doctoral gowns are the most elaborate with velvet panels down the open front and three velvet bars on the bell-shaped sleeves.

HOODS: The hoods, differing in length for the three degrees (bachelor's, master's, and doctor's), are lined with the colors of the institution that granted the degree. Hoods are also trimmed with the color that heralds the major field of learning.

CAPS: A square mortarboard is the approval headgear. The tassel, fastened to the middle point of the top of the cap, is black or the color appropriate to the subject; it may be gold if the holder has a doctor's degree. Memphis State University has adopted the practice of having candidates for the bachelor degree to wear the tassels on the right front side before degrees are conferred and to shift them to the left at the moment when the degrees are awarded to them.

Following is a list of the hood and tassel colors that represent several categories of learning:

Arts, Letters, Humanities	White
Commerce, Accountancy, Business	Sapphire Blue
Economics	Copper
Education	Light Blue
Engineering	Orange
Fine Arts	Brown
Home Economics	Maroon
Journalism	Crimson

Law	Purple
Music	Pink
Nursing	Apricot
Oratory (Speech)	Silver Gray
Philosophy	Dark Blue
Physical Education	Sage Green
Science	Golden Yellow
Social Work	Citron

All hoods are *edged* with the above colors. These same colors may be used for the facing and sleeve bars of doctoral gowns and tassels on bachelors' and masters' caps.

The *lining* of the hood indicates the university granting the degree—for Memphis State University, blue and gray. Among other institutional colors represented at this commencement are those for Arkansas, red and white; Chicago, maroon; Columbia, light blue and white chevron; Duke, royal blue with white chevron; Emory, navy blue with gold chevron; Harvard, crimson; Illinois, navy blue with two orange chevrons; University of Iowa, old gold; Kansas, navy blue with cardinal chevron; Northwestern, purple with gold chevrons; Ohio State, scarlet with silver gray chevron; Rice, silver above blue; Texas, white above orange; Vanderbilt, black and gold; Wisconsin, bright red; Yale, royal blue.

THE DEPARTMENT OF NURSING

Candidates presented by Mrs. Lois J. Hollomon, Chairman

The Department of Nursing offers the Associate of Science degree in Nursing and will begin offering the Bachelor of Science in Nursing in the fall of this year. The primary purpose of the nursing program is to provide educational experiences designed to prepare graduates who have the ability to plan and implement direct care to patients with common, recurring nursing problems. Each nursing course includes clinical experiences in one of the many local public and private health facilities. Graduates from the program are eligible for licensure as a Registered Nurse in the State of Tennessee. The Department of Nursing is accredited by the National League for Nursing and approved by the Tennessee Board of Nursing.

THE COLLEGE OF ARTS AND SCIENCES

Candidates presented by Acting Dean James F. Payne, Ph.D.

The aims and purposes of The College of Arts and Sciences are summarized in these words which serve as part of our official statement in the catalog issue of the University Bulletin: "The program of liberal studies aims (1) to provide students with a store of factual knowledge; (2) to introduce them to varying sets of principles; (3) to stimulate them to think about and to evaluate these facts and principles; and (4) to encourage them to order their own affairs and those of society with the talent, insight, and discrimination which they develop." We have been privileged to pursue these aims with the following students who are candidates for the four degrees which we offer:

THE COLLEGE OF BUSINESS ADMINISTRATION

Candidates presented by Robert M. Crowe, Ph.D.

The College of Business Administration offers only one undergraduate degree, the Bachelor of Business Administration degree. The goal of the undergraduate program of the College of Business Administration is to provide the basic education needed to prepare a man or woman to enter the field of business and to move rapidly from an entry level position to a managerial level of work.

We believe the curriculum which best accomplishes this goal consists of four components. First, a broad foundation of course work is provided in the liberal arts and sciences. At least 40% of the work taken by each student in the College of Business Administration is in the humanities, the social sciences, the natural and physical sciences, communications, and mathematics.

Second, the curriculum includes a significant amount of study of the economic and legal environment of business and introduces each of the major functional fields of business—accounting, management, and marketing.

Third, the curriculum provides for a choice of a major by the student. He is permitted to select his major from accounting, economics, finance, insurance, real estate, business management, marketing, international business, or office administration. Within most majors there is opportunity for the student to select a more specialized area of concentration, such as personnel management, advertising, economic theory, secretarial science, and so on.

Fourth, the Bachelor of Business Administration curriculum offers the opportunity for the selection of free electives. Through these electives, the student may select courses particularly suited to his or her own interests, thus providing an opportunity for the student to pursue greater breadth or greater depth of study of business or other fields.

THE COLLEGE OF COMMUNICATION AND FINE ARTS

Candidates presented by Dean Richard Robert Ranta, Ph.D.

The College of Communication and Fine Arts is ultimately focused upon visual and audible symbols, whose rational and emotional values it is the mission of the College to create and explore. In the belief that perception is largely shaped by experience, the College of Communication and Fine Arts offers a range of symbolically rendered experiences, both individual and collective, in the hope of broadening and sensitizing the perceptions of its students.

Through its various professional courses of study, it prepares students to work toward careers in the fine or applied arts, communication, or the performing arts, whether as practitioners, teachers, artists, or consultants. The College offers four degrees by which to accomplish its purposes:

BACHELOR OF ARTS

Candidates for the oldest of the traditional baccalaureate degrees are students who have majored in art history; journalism with concentrations in either advertising, broadcast journalism, news editorial, magazine, press photography, or public relations; applied music; music history and literature; or speech and drama with concentrations in general speech, radio, television, film, rhetoric and communication arts, or theatre.

THE COLLEGE OF EDUCATION

Candidates presented by Dean Robert L. Saunders, Ed.D.

The College of Education pursues six stated goals to help the University achieve its basic purpose, the advancement of learning. One of the six goals is highlighted at each commencement. This goal is "to provide preparation programs which produce teachers and certain other professional personnel sufficient in quantity and competence to help meet the needs of the state, region, and nation."

The several undergraduate preparation programs provided by the College of Education lead to three baccalaureate, professional degrees: the Bachelor of Science in Education, the Bachelor of Music Education, and the Bachelor of Science in Home Economics.

Each of the degree programs consists of three basic components. General Education courses comprise approximately 45% of each degree program. Professional courses make up from 25% to 40% of the total, depending upon the particular programs followed. The remaining portion is used to develop one or more specializations.

In addition to their prescribed courses, graduates of the various degree programs are required to meet criteria related to their personal and professional fitness for their chosen careers. Field-based laboratory experiences are included in all preparation programs in the College.

BACHELOR OF SCIENCE IN EDUCATION

Candidates for this professional degree have studied in programs covering six broad fields: curriculum and instruction, distributive education, health and physical education, home economics education, library service, and special education and rehabilitation. These several teacher education preparation programs cover eleven majors which, in turn, are subdivided into some forty academic teaching endorsements. The College of Education also offers through this degree majors in the non-teaching fields of recreation and park administration and rehabilitation education.

THE HERFF COLLEGE OF ENGINEERING

Candidates presented by Dean Orville E. Wheeler, Ph.D.

The Engineering College's function is to provide education and research opportunities in the principal fields of engineering and engineering technology for the benefit of the industries and agencies of the metropolitan area, the state, and the nation. This purpose is accomplished by providing professional education in the principal fields of engineering, instruction for majors and minors in geology, education in the major areas of four-year engineering technology, and graduate education in all areas. The programs in engineering and engineering technology are accredited by the prestigious Engineers' Council for Professional Development. The following are the degrees offered with the appropriate concentrations within the respective areas:

BACHELOR OF SCIENCE IN CIVIL ENGINEERING

Candidates for this degree have majored in civil engineering with a concentration in environmental engineering, foundation engineering, structural engineering, or transportation engineering.

THE UNIVERSITY COLLEGE

Candidates presented by Dean Robert J. Hatala, Ph.D.

The mission of University College is to serve the educational needs of students whose career and personal goals require a non-traditional degree program. Mature, motivated students working closely with a committee of faculty advisors may participate in the design of their own individual degree program of study. To assume responsibility for designing an individualized concentration requires an unusual degree of independence, certainty of direction and maturity. It is not surprising therefore that the students of University College range in age from 17 to 65 with an average of 32 years. The degrees awarded by the College are the Bachelor of Liberal Studies and the Bachelor of Professional Studies.

For the faculty of Memphis State, University College offers an arena to explore new interdisciplinary forms of education at all levels of the curriculum. Indeed, the faculty of University College is drawn from the other five undergraduate colleges of Memphis State. Over 140 members of the Memphis State faculty from 40 departments now serve University College as advisors or instructors.

With its emphasis on interdisciplinary education which bridges the departments, University College offers to students and faculty alike an educational experience which uses new means to achieve old goals—the close relationship of life and study, the interrelatedness of human knowledge, and the application of that knowledge to the important issues of our time.

NATIONAL ANTHEM

Oh, say can you see by the dawn's early light
What so proudly we hail'd at the twilight's last gleaming,
Whose broad stripes and bright stars through the perilous fight
O'er the ramparts we watch'd were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

ALMA MATER

Stand firm, O Alma Mater,
Through all the years to come;
In days of youth and beauty
Thy halls have been our home.
In time of preparation
Great lessons didst thou teach
Til now, O Alma Mater,
The stars we'll strive to reach.

Lead on, O Alma Mater,
Thy sons to higher ways,
Give light and truth unto them
For all their coming days.
To thee we'll give all honor,
Our hopes abide in Thee,
For thou, O Alma Mater,
Hast made us ever free.
